ASX RELEASE

Penthrox® obtains PBS Listing

Medical Developments International Ltd. (ASX:MVP) today announced the inclusion of Penthrox® (methoxyflurane) in the Federal Government's Pharmaceutical Benefits Scheme (PBS) (Emergency Doctor's Bag section). The inclusion of Penthrox® in the PBS will allow free supply of Penthrox to General Practitioners and is expected to result in a significant increase in usage amongst GPs.

MVP Chief Executive Officer, Mr John Sharman, explained "the direct inclusion of Penthrox® in the Doctors Bag section of the PBS is a first of this type of listing and provides the opportunity for General Practitioners to use the product for the management of acute pain rather than referring their patient to hospital emergency departments."

The inclusion of Penthrox® was effective on 1 May 2010. Details of the listing can be found at the Department of Health and Ageing's web site www.pbs.gov.au

About Medical Developments International Limited

MVP is a leader in emergency pain relief and respiratory products. The Company manufactures a fast acting pre-hospital and emergency pain relief product called Penthrox®. It is used in all Australian Ambulance Services, the Australian Defence Forces, Sports Medicine and for analgesia during short surgical procedures in Dentistry and Aesthetic surgery.
