

FACTS SHEET

Medical Developments International Limited (MDI) is a leading Australian healthcare company in pain relief and respiratory medicine (ASX: MVP).

MDI has a range of products for pain management, asthma, oxygen delivery and veterinary use. MDI's aim is to commercialise these products internationally.

MDI is based in Australia and consists of three major business divisions:

1. Pharmaceutical
2. Medical Devices
3. Veterinary

MDI manufacture the innovative pain relief product called Pentrox[®], a non-narcotic inhalational analgesic that has been widely adopted by organisations throughout Australia as the "first line" in pain management.

MDI has a proud history in human and veterinary medicine, throughout Australia as well as internationally. For over 30 years MDI's key products have helped healthcare professionals achieve better health outcomes for their patients

MDI is compliant with Good Manufacturing Practices as well as ISO 13485 for the manufacture of several of its products (including both pharmaceutical and medical products). Several MDI products are also CE marked, enabling them to be sold into the European Community.
