ASX Announcement

Pentrox : First order received for Austria

Medical Developments International Limited (ASX: MVP) is delighted to announce that it has received its first order for Pentrox for launch in Austria. The Marketing Authorisation for Austria was received and announced on 29 January 2018.

The company is expecting other orders to be received in the coming months as Marketing Authorisations are received from other countries.

MVP CEO, Mr. John Sharman said, "We are announcing this order to demonstrate sales in the first of the 22 EU members states that we announced to the ASX on 22 January 2018. Whilst we expect to receive orders from other countries during CY18, we consider these to be in the ordinary course of business and therefore we do not necessarily intend to announce individual country orders as they are received."

About Pentrox

Pentrox is a fast onset, non-opioid analgesic indicated for pain relief by self-administration in patients with trauma and those requiring analgesia for surgical procedures. Pentrox has been used safely and effectively for more than 40 years in Australia with excess of 5.0 million units sold. There is growing interest in Pentrox being used in patients undergoing investigatory procedures, as well as operational procedures such as colonoscopy.

About Medical Developments International Ltd

MVP is an Australian company delivering emergency medical solutions dedicated to improving patient outcomes. MVP is a leader in emergency pain relief and respiratory products. The Company manufactures Pentrox®, a fast acting trauma & emergency pain relief product. It is used in Australian Hospitals including Emergency Departments, Australian Ambulance Services, the Australian Defence Forces, Sports Medicine and for analgesia during short surgical procedures such as Dental and Cosmetic surgery as well as in other medical applications. MVP is expanding internationally and manufactures a range of world-leading Asthma respiratory devices.

About the Mundipharma network

The Mundipharma global network of privately-owned independent associated companies was founded in 1956 by doctors, and now operates in over 120 countries worldwide. We are focused on developing business partnerships to identify and accelerate meaningful technology across an increasingly diverse portfolio of therapy areas including respiratory, oncology, pain, and biosimilars. Consistent with our entrepreneurial heritage, we like to think we see what others don't by challenging conventional wisdom and asking different and challenging questions. By working in partnership with all our stakeholders, the Mundipharma network develops medicines that create value for patients, payers and wider healthcare systems.
