ASX ANNOUNCEMENT

Medical Developments completes a A\$25 million placement to accelerate the commercialisation of Pentrox in European Markets

Key Highlights

- **Medical Developments International Limited (MVP) has successfully raised approximately A\$25 million via a placement supported by new and existing investors in Australia and offshore**
- **Proceeds will be used primarily to accelerate commercialisation of Pentrox in the EU, to strengthen the depth and breadth of the MVP team and to complete clinical and other studies**
- **MVP's commercialisation strategy will be led by former CSL and Seqirus executives Gordon Naylor (incoming Chairman) and Brent MacGregor (CEO)**
- **The Placement will strengthen MVP's balance sheet. Following the Offer, MVP will have pro-forma net cash of approximately \$44.9 million.¹**

Incoming MVP Chairman and former CSL Chief Financial Officer Gordon Naylor stated: "There are parallels between MVP and my former employer CSL in two ways; firstly around Seqirus and what we achieved there in a short period of time. That business was driven from generating an annual loss of \$250m to being a profitable high growth market leader within 3 years. Secondly, I am proud to have been part of the internationalisation of CSL from domestic roots to the global leader that the company is today."

Mr. Naylor continued: "For businesses like MVP which have experienced success in the local and relatively small Australian marketplace there is transition risk when expanding abroad into diverse international markets. The experience that MVP's new CEO Brent MacGregor and I bring to the table is relevant to making that transition a successful one and executing on the international stage."

The opportunity for the success of Pentrox in Australia to be replicated in Europe is immense and both Brent and I are excited by this challenge and look forward to executing on our strategy."

Outgoing Chairman, major shareholder and ongoing Non-Executive Director, David Williams stated: "The exciting part is that both Gordon and Brent together have a vision for MVP to take it to a level that we have not so far got to ourselves. The reason for the fund-raising is to allow them to do that, and to have a small war chest over the next 12 to 24 months.

I take this opportunity to thank both existing and new shareholders for their support in this transaction and throughout what has been a challenging year. I warmly welcome Gordon to the role of Chairman and assure shareholders that from a leadership perspective the company is now in the very best of hands with Gordon and Brent at the helm."

¹ Pro-forma as at 30 June 2020. Assuming full take up on the SPP
